

Karan Kathur

Full-Stack Developer — Python Engineer — Web & Mobile Applications

India — kathurkaran077@gmail.com — +91-63524-54180

Portfolio — [GitHub](#) — [LinkedIn](#)

Professional Summary

Full-Stack Developer with strong expertise in Python-based backend systems and modern frontend technologies. Experienced in building scalable web and mobile applications, REST APIs, analytics dashboards, and secure authentication systems. Freelancing full-time since July 2025, delivering end-to-end solutions with a focus on clean architecture, performance, and user-centric design.

Technical Skills

Backend: Python, Django, Flask, FastAPI, RESTful APIs, Node.js

Frontend: React, Next.js, JavaScript, TypeScript, Tailwind CSS, HTML5, CSS3

Mobile: Flutter, React Native, Dart

Databases: PostgreSQL, MySQL, MongoDB, SQLite, Firebase

Data & Analytics: Pandas, NumPy, Matplotlib, Tableau, Power BI

Tools & Platforms: Git, GitHub, Docker, Figma, VS Code, Linux

Other: UI/UX Design, Responsive Design, Web Security, Agile & Scrum

Professional Experience

Freelance Full-Stack Developer

July 2025 – Present

Self-Employed

- Deliver end-to-end web and mobile applications for clients, from requirement analysis to deployment.
- Architect and develop full-stack systems using Python (Django, Flask, FastAPI) and modern frontend frameworks.
- Build REST APIs, authentication systems, dashboards, and database-driven applications.
- Design responsive, user-focused interfaces using Tailwind CSS, Bootstrap, and Figma.
- Manage complete project lifecycle including planning, development, optimization, and maintenance.
- Portfolio and live projects available at karankathur06.github.io/my_portfolio.

Python Developer Intern

Feb 2025 – July 2025

BellatrixNC

- Led development of **EcoCarpool**, a Django-based sustainable ride-sharing platform.
- Developed RESTful APIs for frontend and mobile application integrations.
- Built real-time analytics dashboards using Chart.js.
- Integrated secure authentication, authorization, and payment workflows.
- Optimized database queries, improving performance by approximately 40%.
- Worked in an Agile environment and maintained technical documentation.

Projects

EcoCarpool Platform

2025

Python, Django, PostgreSQL, JavaScript, Bootstrap

- Developed a full-featured ride-sharing platform focused on sustainable transportation.
- Implemented ride booking, secure payments, eco-impact tracking, and admin analytics dashboard.

Smart Short Link Platform

2025

Python, Django, REST APIs, JavaScript, PostgreSQL

- Built a URL shortening and analytics platform with authentication and dashboard insights.
- Implemented link tracking, CPM logic, earnings analytics, and role-based access control.

Real-Time Analytics Dashboard

2024

Python, Flask, Pandas, Chart.js, PostgreSQL

- Designed a real-time data analytics dashboard for business performance monitoring.
- Visualized KPIs using interactive charts and automated data pipelines.

Authentication & User Management System

2024

Python, Django, JWT, PostgreSQL

- Designed secure authentication and authorization workflows using JWT-based access control.
- Implemented email verification, role-based permissions, and session management.

T20 Cricket Analysis Dashboard

2023

Python, Pandas, Matplotlib, Tableau, Power BI

- Analyzed and visualized player and match performance statistics across multiple datasets.
- Built interactive dashboards with comparative and predictive insights.

Criminal Investigation System

2024

Flutter, Firebase

- Developed a mobile application for managing criminal records and investigations.
- Implemented Firebase authentication, advanced search, filters, and role-based access control.

Ghost VA (Virtual Assistant)

Aug 2022

Python, Speech Recognition, NLP, APIs

- Built a voice-enabled virtual assistant supporting multi-user workflows.
- Implemented task management, web search, automation, and text-to-speech features.

Portfolio & Client Websites

2023 – 2025

React, Next.js, Tailwind CSS, JavaScript

- Designed and developed multiple responsive portfolio and business websites.
- Focused on performance optimization, SEO fundamentals, and modern UI/UX practices.

Education

B.Tech in Information Technology

2021 – 2025

Atmiya University, Rajkot — CGPA: 8.2 / 10

Higher Secondary (Science – PCM)

2021

Modi School, Rajkot — Percentage: 83%

Certifications

- Hackathon Participation Certificate
- Python Development Certification
- Data Science with Python
- Machine Learning Fundamentals
- AI ChatGPT Bootcamp
- Git & GitHub Bootcamp
- Excel Bootcamp
- C / C++ Development Certification
- HTML & CSS Design Thinking
- Social Media Marketing Internship

Additional Information

Languages: English (Professional), Hindi (Native), Gujarati (Native)

Soft Skills: Problem Solving, Critical Thinking, Time Management, Leadership
